

Tiszaújváros, January 2, 2020

Dear Business Partner,

We are pleased to offer you the “electronic invoice sending” as an advanced and modern service, that allows you to improve and speed up processes as well as brings our cooperation to a higher level. This service fully complies with all EU statutory regulations, mainly point 2 of Article 2 of the Directive 1999/93/EC of the European Parliament and of the Council on a Community framework for electronic signatures.

The most important benefits of this service are:

- time-saving: customer receives the invoice immediately after it is generated by our system; more time and flexible processing and arranging invoices and payments;
- you will not have to wait for invoices which would be pending delivery by post,
- received electronic invoice in “pdf” format is exactly equal to the “old-fashioned” paper based invoices;
- the electronic invoices are generated using the latest technology and are verified by electronic signature which guaranties the authenticity of the content and origin of the invoice;
- it allows you full compliance with accounting standards;
- possibility of easy electronic handling and processing of invoices at any point in time;
- easy and modern archiving without the need of paper storage capacities;
- user friendly tool;
- it is fully in line with modern environmental trends.

The introduction of this system was already welcomed by lots of our customers, as the paper-based form does not carry any of the above-mentioned advantages.

If you wish to use this service, and receive the invoices in the electronic form, please fill-in the attached agreement, print it in two pieces, sign it and send them back to us by post to our below postal address. One duly-signed copy of the agreement will be posted back to you.

Polymer Customer Service, MOL  
MOL Nyrt.  
3581 Tiszaújváros, Pf. 20.
