# PETROCHEMICALS

Dear Partner!

In 2023, MOL Hungary will prioritize the implementation of electronic invoicing at MOL Group subsidiaries.

The electronic invoicing process continues at **MOL Petrochemicals Plc.**, which means all the invoices will be issued electronically instead of the paper one, if you agree it by completing the attached statement.

**The invoices issued will be timestamped and electronically signed and comply with the requirements of the Hungarian law** (TV Act 2000 and § 174-175 of the VAT Act).

We will send your invoices in the future as an attachment in pdf format to your Company, and we kindly request your consent by completing the attached statement:

email: [ertpolymercusterservice@mol.hu](mailto:ertpolymercusterservice@mol.hu)

We hope that electronic billing will improve our billing processes.

Kind regards,

  
MOL Petrochemicals  
Private Company Limited by Shares
